Leave it to the experts at Sky Creation to conjure a stylish kitchen for your home

Kitchens often make up the most expensive expenditure during the overhaul of a home. With that, you want to be sure that you are making a wise investment for your cooking space. Be it in quality surfaces, excellent workmanship in cabinetry or an outstanding kitchen design, Sky Creation has got you covered.

Providing a one-stop solution to all your interior needs, Sky Creation boasts its very own museum which features showrooms of luxurious show flats. Best of all, the museum showcases a kitchen gallery which offers different styles of surfaces such as Caesar stone for countertops.

To ensure the consistency in quality, the all-in-one interior design firm has developed its own labels for kitchen

solutions. For starters, Acque addresses your needs for kitchen fixtures. If you prefer something more environmentally-friendly, its homegrown kitchen brand Himmel Küche is at your service. Having earned a Green Label Singapore award which is a first for an interior design company, some of the highlights of this environmentally sustainable label include quality hinges and mechanisms; high quality water-resistance and scratch-resistance products and the versatility of being able to be incorporated with all kinds of kitchen storage solutions.

Aside from assuring the quality standards for the inner works of the kitchen, the design team takes pride in churning out excellent kitchen designs. No matter the style or layout of any kitchen requested, the designers will deliver and bring inspiration and innovation to the table.
